PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with a CGPA of 7.71 and hands-on experience in web development, machine learning, and database management. Skilled in Python, Java, PHP, HTML, CSS, JavaScript, and MySQL. Passionate about building practical software solutions and eager to contribute as a Software Developer.

TECHNICAL SKILLS

- **Languages:** Python, Java, C++
- **Web Development:** HTML, CSS, JavaScript, PHP
- **ML & Data:** scikit-learn, NumPy, Pandas, Matplotlib, Random Forest
- **Databases:** MySQL, MySQL Workbench
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook
- **Concepts:** OOP, DBMS, DSA, REST APIs, Machine Learning, Role-Based Access Control

PROJECTS

AI-Based Student Burnout & Mental Health Prediction [Major Project] · Jan 2025 – Present

- Developing an ML system to predict student burnout risk using behavioral and academic data features.
- Applying supervised learning techniques, and model evaluation using scikit-learn and Pandas.
- Designing the system for integration as a counselor-facing web tool to flag at-risk students early.
- Research presented at an international conference (ICETGBEAS, April 2026) — see Publications section.

Phishing Website Detection via URL Analysis [Mini Project] Bangalore · Sep 2024

- Trained a Random Forest classifier in Python (scikit-learn) to detect phishing URLs with high accuracy.
- Engineered features from URL structure using Pandas.
- Evaluated with precision, recall, F1-score, and confusion matrix; published findings in IJRPA.

POCSO Complaint Management System [Academic Project] Bangalore · 2024

- Built a full-stack web application with role-based portals for citizens, officers, and administrators.
- Developed backend in PHP with MySQL; implemented complaint tracking, status updates, and access control.
- Designed and normalized the database schema to support multi-role workflows and audit trails.

Income Tax Registration Form [Academic Project] Bangalore · 2024

- Designed a responsive, multi-field HTML/CSS/PHP form with server-side input validation.
- Focused on clean UX, field-level error handling, and cross-browser compatibility.

EDUCATION

B.Tech in Computer Science and Engineering (CGPA: 7.71)

SEA College of Engineering and Technology (VTU) — 2023-2027

CERTIFICATIONS

Generative AI Literacy: NASSCOM

Digital Application Fundamentals: NASSCOM

Introduction to Cybersecurity: Infosys Springboard

Fundamentals of Information Security: Infosys Springboard

Fundamentals of Cryptography: Infosys Springboard

Project Management: Simplilearn

KEY STRENGTHS

Attention to detail , Logical thinking , Time management , Fast learner .
